Professional Summary

Motivated and detail-oriented Computer Science Engineering student specializing in Artificial Intelligence & Data Science. Enhancing to develop scalable web and AI-driven applications. Strong communication, problem-solving, and teamwork skills. Eager to apply knowledge and gain hands-on experience in a dynamic IT environment.

Education

Bachelor of Technology in Computer Science (AI & DS) – CGPA:9
CT University, 2022–2026
Intermediate (10+2)- CGPA: 8.9
Vedavyasa Bhavan(Sri Chaitanya), 2020–2022
Secondary Education (CBSE - Class 10)-CGPA:8.8
Amara Raja Vidyalayam, 2008–2020

Technical Skills

• **Programming Languages:** Python, SQL, JavaScript

• **Web Development**: HTML, CSS, Bootstrap

• **Data Science:** Machine Learning, NLP, Sentiment Analysis, Data Analysis

• **Tools & Platforms**: Power BI, Excel

Projects

Real-time AI Sales Intelligence Assistant (Infosys Springboard Internship, Nov 2024 – Jan 2025)
- Developed a sentiment-driven deal negotiation assistant using Python and AI tools.
- Integrated APIs for real-time data processing and response generation.

- Integrated Google Sheets and CRM data to adapt negotiation strategies on the fly and improve conversion rates.

- Implemented modules for sentiment and intent analysis, dynamic deal recommendations, and post-call insights.

Real Estate Price Prediction
- Built a regression-based model to predict house prices using key parameters like location, square feet, and number of bathrooms.
- Applied data preprocessing, feature selection, and model evaluation techniques for accurate predictions.

Multi-Agent System in Healthcare using Machine Learning Algorithms

-Developed a multi-agent system integrating ML algorithms to enhance disease prediction accuracy.

-Used Parkinson's disease and heart disease datasets to train predictive models.

-Applied Logistic Regression and Random Forest Classifier to build high-accuracy diagnostic tools.

To-Do List Web Application
- Created a responsive task management app using HTML, CSS, JavaScript, and Bootstrap.

Experience

AI/ML Intern, Eidiko Systems Integrators, Hyderabad Jul 2025 – Present

- Developing and deploying machine learning models for real-time applications.

- Working with NLP pipelines, model evaluation, and integrating AI solutions with internal systems.
- Collaborating with cross-functional teams to deploy end-to-end ML pipelines.

AI Intern – Infosys Springboard Virtual Internship Nov 2024 – Jan 2025

- Built a real-time AI Sales Intelligence and Sentiment-Driven Deal Negotiation Assistant.
- Leveraged LLMs (OpenAI GPT, Meta LLaMA) and integrated CRM data and Google Sheets for dynamic sales negotiation.
- Delivered post-call performance summaries and developed AI-powered negotiation coaching.

Certifications

- Frontend Development Certification – AllSoft Solutions

- Data Analysis with Python – IBM

- Python for Data Science — IBM

- Machine Learning — IBM

- Data Analytics & Visualization Simulation – Accenture North America

- Sales Assistant Project Certification – Infosys Springboard
